

# Alexander Almeida

Full Stack Developer | Software Engineer

## JOB EXPERIENCES

### Reevo Energia Solar — *IT Assistant*

DESDE JANEIRO DE 2023

In my current job, I am responsible for developing systems, assisting clients, supporting management systems, contributing to the company's main website, creating budgets and financing plans, managing spreadsheets, organizing customer documents, and building systems that enhance company productivity.

### Brinquedos Para Todos — *Front-end Developer*

JANEIRO DE 2023 - MARÇO DE 2023

This organization, which aims to help underprivileged children, needed an organization system for "Letters to Santa Claus," where a group of volunteers, including myself, were responsible for developing this system. I was in charge of the front-end portion.

### Girls Now Woman Later — *Front-end Developer*

OUTUBRO DE 2022 - NOVEMBRO DE 2022

In this volunteer work, I helped build the front-end and manage the SEO of the organization's website, using technologies such as Figma, Wordpress, Google Analytics, and Google SEO. The organization aims to bring education to girls in Burkina Faso.

## CERTIFICATIONS

### Rocketseat - Ignite

JUNHO DE 2022 - NOVEMBRO DE 2022

In this course, I learned how to develop applications that meet the main needs of clients, using technologies such as React with Next to create high-performance interfaces, Node and Express to create APIs, Docker to manage containers, and React Native to create mobile applications. I also learned to use TypeScript in all applications.

### Unicesumar - Analysis and Systems Development

JANEIRO DE 2022 - JUNHO DE 2024

At this university, I learned the fundamentals of programming and software development, advanced object-oriented programming concepts, web and desktop application development, database management, and system security.
